

North West WA Food Discovery Tour Mid West, Gascoyne & Pilbara

Following WA's Food Story Northwards
from Ocean & Orchard to Outback

11 days 10 nights | 2nd to 12th August 2027 | 12 people maximum

What's in store on this adventure

Created for the curious and quietly adventurous, this experience takes us through some of Western Australia's most spectacular landscapes and food-producing regions.

Beginning in Perth, follow the seasonal rhythm north through green rolling countryside, fertile orchards, market gardens, plantations and coastal fishing communities, immerse yourself in the beauty of Karijini before reaching the remote cattle stations and ancient landscapes of the Pilbara. Along the way we'll meet remarkable people, hear their stories and share memorable meals inspired by the places we travel through.

From fishing boats and tropical orchards to cattle stations and campfires beneath star-filled skies, this is a journey that blends breathtaking scenery with genuine connection to the people who produce our food.

Being remote doesn't mean going without good coffee. A coffee station has been fitted into the rear of our touring vehicle, so even when there's not a café for miles, we can still start the day properly - flat white, long black or espresso?

Accommodation ranges from country hotels and station stays to comfortable camping, with evenings spent around the fire enjoying relaxed long-table dining and the company of fellow travellers. This is a journey beyond the familiar, where spectacular scenery, warm country hospitality and a deeper understanding of Western Australia's food story come together in unforgettable ways.

Meet Your Hosts

Tracey and Anthony Cotterell have spent over thirty years connecting people through food. Tracey is a chef and food educator, endlessly curious about good food and the people who produce it - their knowledge, ingenuity, resilience and pride in what they do. She loves nothing more than taking beautiful produce, cooking with it and bringing everyone together around the table to share the food, conversation and discoveries of the day.

Anthony grew up on the land and brings a practical understanding of rural life, a love of the great outdoors and an unflappable ability to make things happen. Behind the wheel of Matters of Taste's purpose-built 4WD touring vehicle, he gets the group safely and comfortably into the more remote places that make this journey so extraordinary.

Together, Tracey and Anthony have built relationships with the people you'll meet and created a journey they can't wait to share. They'll be there throughout - behind the wheel, behind farm gates, cooking around the campfire and gathered around the table - making introductions, asking questions and ensuring everyone feels part of what's happening.

For them, the greatest pleasure is seeing their guests delight in the people they meet, the places they discover and the food they share along the way.
